

# CFF SCHOOL PARTNERSHIP PROGRAM

## PROGRAM OVERVIEW

CFF's School Partnership Program is a customizable opportunity for philanthropic partners interested in building a multi-year, 1:1 partnership with a CPS school. We will match you with a school aligned with your goals and work with you to create a mutually beneficial partnership tailored to the needs of the school.

Throughout the challenges of the last year, we've been inspired to see companies, foundations, and individuals across the city step up to meet the moment and support Chicago Public Schools. We've seen organizations eager to establish relationships with our school communities.

The CFF School Partnership Program is a natural result of this interest, and a unique opportunity to closely support and engage with an individual CPS school. Partnerships will bolster schools' recovery efforts and help usher them into a new season of post-pandemic growth. With a multi-year engagement, partners and schools alike can build lasting relationships and enjoy meaningful impact.

Ongoing community and philanthropic support will play a vital role in supporting CPS schools and students as we work to address unfinished learning and promote safe, equitable learning environments for all.
